

# Breville

the Scraper Mixer Pro

Instruction Booklet

Suits all BEM800 models

## **CONGRATULATIONS**

on the purchase of your new Breville product

#### CONTENTS

- 4 Breville recommends safety first
- 7 Know your Breville product
- 11 Assembly & operation
- 18 Care, cleaning and storage
- 20 Measuring and weighing
- 23 Hints and tips
- 28 Troubleshooting
- 30 Recipes

BEM800\_IB\_i13.indd 3

At Breville we are very safety conscious. We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions.

#### IMPORTANT SAFEGUARDS

#### READ ALL INSTRUCTIONS BEFORE USE AND SAVE FOR FUTURE REFERENCE

- Carefully read all instructions before operating the Scraper Mixer Pro for the first time and save for future reference.
- Remove and safely discard any packaging material and promotional labels before using the bench mixer for the first time.
- To eliminate a choking hazard for young children, remove and safely discard the protective cover fitted to the power plug of this appliance.
- Do not place the bench mixer near the edge of a bench or table during operation.
   Ensure the surface is level, clean and free of water and other substances. Vibration during operation may cause the appliance to move.

- Do not use the bench mixer on a sink drain board.
- Do not place the bench mixer on or near a hot gas or electric burner, or where it could touch a heated oven.
- Always ensure the bench mixer is completely assembled before operating. Follow the instructions provided in this book.
- Ensure the speed control dial is in the OFF position and the bench mixer is switched off at the power outlet and the power cord is unplugged before attaching the beater, whisk or dough hook.
- Do not use attachments other than those provided with the bench mixer. Use only the beater whisk and dough hook supplied with the mixer.

- Do not operate the appliance continuously on heavy loads for more than 3 minutes.
   None of the recipes in this book are considered a heavy load.
- Handle the bench mixer and attachments with care. Never place your fingers inside the mixing bowl or near the beater, whisk or dough hook during operation.
- Keep hands, hair, clothing, as well as, spatulas and other utensils away from moving beater, whisk or dough hook/ during operation.
- Should an object such as a spoon or spatula fall into the bowl while mixing, immediately ensure the speed control dial is in the OFF position, turn the bench mixer off, unplug at the power outlet and remove the object.
- Do not place hands in the mixing bowl unless the bench mixer is disconnected from the power outlet. Ensure the speed control dial is in the OFF position, the bench mixer is switched off and unplugged from the power outlet before removing the beater, whisk or dough hook.

- Ensure the motor and beater, whisk or dough hook have completely stopped before disassembling.
- Always remove the beater, whisk or dough hook from the bench mixer before cleaning.
  - Care should be taken when removing the food from the mixer bowl by ensuring the motor and the beater, whisk, or dough hook have completely stopped before disassembling. Ensure the speed control dial is in the OFF position, the appliance is switched off at the power outlet and unplugged before unlocking the mixer motor head and moving into the upright position. The beater, whisk or dough hook should be released from the mixer motor head before removing the processed food from the mixer bowl and the beater, whisk or dough hook.
- Ensure the mixer motor head is locked into the horizontal (closed) position when not in use and before storing.

- Always ensure the speed control dial is in the OFF position, the power is switched off at the power outlet and the power cord is unplugged from the power outlet before attempting to move the bench mixer, before assembling or disassembling, when not in use and before cleaning or storing.
- Do not move the bench mixer whilst in operation.
- Do not leave the bench mixer unattended when in use.
- Do not place any part of the bench mixer in the dishwasher other than the bowl, splash guard, beater, dough hook and whisk.
- Do not place any part of the bench mixer in the microwave oven.
- Keep the bench mixer clean. Follow the cleaning instructions provided in this book.

#### IMPORTANT SAFEGUARDS FOR ALL ELECTRICAL APPLIANCES

- Fully unwind the power cord before use.
- Do not let the power cord hang over the edge of a bench or table, touch hot surfaces or become knotted.
- To protect against electric shock do not immerse the power cord, power plug or appliance in water or any other liquid.
- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

## SAVE THESE INSTRUCTIONS

#### BREVILLE RECOMMENDS SAFETY FIRST

- It is recommended to regularly inspect the appliance. To avoid a hazard do not use the appliance if power cord, power plug or appliance becomes damaged in any way. Return the entire appliance to the nearest authorised Breville Service Centre for examination and/ or repair.
- Any maintenance other than cleaning should be performed at an authorised Breville Service Centre.
- This appliance is for household use only. Do not use this appliance for anything other than its intended use. Do not use in moving vehicles or boats. Do not use outdoors. Misuse may cause injury.
- This appliance shall not be used by children.
- Keep the appliance and its cord out of reach of children.

 The installation of a residual current device (safety switch) is recommended to provide additional safety protection when using electrical appliances. It is advisable that a safety switch with a rated residual operating current not exceeding 30mA be installed in the electrical circuit supplying the appliance.
 See your electrician for professional advice.

### **⚠** WARNING

Ensure the speed dial control is in the OFF position the bench mixer is switched off at the power outlet and unplugged from the power outlet before attaching the beater, whisk or dough hook.

## **KNOW**

your Breville product

#### KNOW YOUR BREVILLE PRODUCT

- A. Motor head Powerful motor for thorough mixing results.
- 4.7L stainless steel mixing bowl with handle.
- C. Illuminated LED speed indicator band-Displays selected mixing task.
- D. Tilt back and lock down hinge button -The motor head tilts back and locks into position to allow easy removal of the mixing bowl and attachments.
- E. Bowl locking recess The bowl locking recess allows the bowl to be securely locked into place for safety and stability when the mixer is in operation.
- F. LCD screen with count up & down timer - Mixer can be set to count down according to a specified time on a recipe or set to count up to assess mixing time.

- G. Pause function Rotate dial to PAUSE to temporarily stop mixing and pause the timer.
- H. Breville Assist™ handles Handles on base and on motor head allow for easy and comfortable lifting of the mixer.
- Load sensing technology Mixer automatically senses the load and adjusts the power to maintain the selected speed (not shown).
- J. Internal cord storage Located in the rear of the mixer. Cord pushes into the mixer base for convenient and tidy storage.
- K. Splash guard Prevents ingredients from splattering out of the bowl.

**(** 

#### KNOW YOUR BREVILLE PRODUCT

- L. Flat beater Thoroughly mixes a variety of mixtures such as cake and biscuit batter, pastries, and mashed potatoes.
- M. Wire whisk Consistently mixes and aerates for egg whites, cream and thin batters.
- N. Dough hook Effectively kneads heavy dough for bread and pizza.
- Scraper beater Scrapes the sides and bottom of the bowl for exceptionally thorough mixing, of cake and biscuit batter, pastry and frosting.
- P. Spatula (not shown).

#### ABOUT YOUR SCRAPER BEATER

The Breville scraper beater folds ingredients and continuously scrapes down the sides and bottom of the bowl for exceptionally thorough mixing. It virtually eliminates the need to scrape the bowl by hand with a spatula and cuts mixing time up to 60%.

Under-mixed batters produce poorly baked results, resulting in collapsing, unevenness of crumb, holes, low rising, streaking and course textures. The scraper beater will help to ensure a thoroughly mixed batter for your favourite cakes, biscuits, frosting and more.

of your Breville product

#### ASSEMBLING THE MIXER

Before using your Breville Scraper Mixer Pro for the first time, remove any packaging material and promotional labels. Ensure the speed control dial is in the OFF position, the mixer is switched off at the power outlet and the power cord is unplugged.

Remove the mixing bowl, beater, whisk and dough hook and wash in warm soapy water with a soft cloth. Rinse and dry thoroughly. The bowl and the attachments may be washed in the dishwasher.

#### NOTE

When first using your Breville Scraper Mixer Pro, you may notice an odour coming from the motor. This is normal and will dissipate with use.

 Place the mixer base on a level, dry surface such as a bench top. The mixer motor head should be in the horizontal (closed) position. Raise the mixer motor head by pressing the RELEASE button.

Lift the mixer motor head up until it tilts back and locks into the open position.

 Insert the mixing bowl into the bowl locking recess of the mixer stand and turn clockwise until the bowl locks securely into place.

#### NOTE

To remove or insert the mixing bowl, the mixer motor head must be raised and locked into the open position.

#### ATTACHING THE SCRAPER BEATER, FLAT BEATER, DOUGH HOOK OR WHISK TO THE MIXER MOTOR HEAD

- Ensure the mixer motor head is in the raised/open position. Align the groove in the top of the mixing attachment with the locking pin on the spindle extending down from the mixer motor head.
- Push the attachment upwards and turn clockwise until it locks securely onto the locking pin on the spindle (see Fig. 1).

 Lower the mixer motor head by pressing the RELEASE button and gently pushing the mixer motor head down until it locks into the horizontal (closed) position (see Fig. 2).

 The splash guard can now be assembled if required. Slide the main ring into position on top of bowl, then assemble the pour spout.

#### NOTE

When ingredients are in the mixing bowl, the scraper beater may make a slight noise as it scrapes the sides and bottom of the bowl. This is normal and should not cause concern.

Do not turn the mixer on with the scraper beater in place if the mixing bowl is empty. This will cause the scraper beater to make a loud noise as it scrapes the bowl.

#### OPERATING THE MIXER

#### Planetary Mixing Action

By replicating a similar mixing action used by commercial mixers in bakeries and patisseries, the Scraper Mixer Pro head rotates around the bowl whilst rotating the beater in the opposite direction. This ensures a superior and thorough mixing result without the need for a rotating bowl.

 Ensure the speed control dial is set to the OFF position, plug the cord into a 220-240V power outlet and switch the power ON at the power outlet. The illuminated LED speed indicator band will flash and the count up/down timer will display 0:00. The mixer is now ready to be used.

#### NOTE

If the mixer has not been used for 3 minutes it will automatically change from STANDBY mode to a power saving OFF mode and the illuminated LED will switch off. To exit OFF mode and begin mixing, turn the dial to the selected speed or press one of the count up/down timer buttons.

Add ingredients to the mixing bowl as indicated in the recipe.

Always begin mixing by selecting a low speed setting on the speed control dial. Starting on a low speed will prevent ingredients splattering. Increase the speed as suited to the mixing task. The speed setting can be adjusted during operation by moving the dial clockwise for the main mixing settings. Use the mixing guide in this booklet as a reference.

If necessary, stop the mixer during operation and scrape any food mixture down the sides of the mixing bowl with a spatula.

#### NOTE

Always turn the mixer off if you need to scrape the bowl during use, and then switch back on and continue mixing.

#### THE COUNT-UP TIMER

The count-up timer is especially useful to gauge mixing time. You can monitor the time it takes to thoroughly mix the ingredients, so that the next time you mix the same ingredients you can set the count-down timer for the specific time.

The count-up timer will automatically begin counting up as soon as the dial is rotated from OFF to one of the speeds. When the dial is turned to PAUSE the total time will be displayed on the LCD and will flash. When the dial is turned to OFF, the LCD display will reset back to 0:00.

#### THE COUNT-DOWN TIMER

The count-down timer is especially useful for any recipe that specifies the length of time ingredients should be mixed. For example, if a recipe reads, "beat for 3 minutes," you can set the count-down timer to 3 minutes by pressing the up/down arrows. After 3 minutes of mixing, an alarm will sound and the motor will automatically turn off. The count-down timer will flash OFF. The control dial must to be rotated to the OFF position to reset the timer and to continue mixing.

To set the count down timer, press the up or down arrows until the desired mixing time is displayed on the LCD screen.

#### NOTE

Press and hold the arrows down to scroll through the timer setting more quickly.

Rotate the dial clockwise to select the desired speed and to begin mixing. When the timer has finished counting down, 0:00 will flash on the LCD screen and a beep will sound to notify you that the time has expired. The mixer will automatically turn the motor off. The control dial must be rotated to the OFF position to reset the timer and to continue mixing.

#### NOTE

The maximum time displayed on the timer is 60 minutes. The mixer will automatically switch OFF at 60 minutes. The control dial needs to be rotated to the OFF position to reset the timer and to continue mixing.

#### PAUSE MODE

While mixing, at any stage, you can rotate the control dial to the PAUSE setting. This will turn the motor off and pause the timer. This enables you to assess the mixing progress or add additional ingredients without affecting the timer.

For example, if you are mixing using the count-up timer mode, you can rotate the control dial from one of the mixing speeds to PAUSE. The mixer motor will stop and the timer will pause. Once ready, you can rotate the dial back to one of the mixing speeds, the timer will continue to count-up from the exact time it was paused. Alternatively, if you have turned the mixer to PAUSE you can then reset the timer to 0:00 by rotating the dial to OFF position.

If using the PAUSE function in countdown timer mode, you can suspend the timer at any stage during the count-down process by rotating the control dial to the PAUSE setting. To continue mixing in the count-down timer mode, simply rotate the dial back into one of the mixing speeds or alternatively to the OFF position to reset the timer to 0:00.

#### MOTOR HEAD SAFETY CUT-OFF

The mixer is equipped with a motor head safety cut-off. If the mixer head is lifted up at any time while the mixer motor is switched on, the safety cut-off will automatically switch the motor off and set the mixer into standby mode.

To restart the motor, lower the mixer head into the secured position, turn the speed control dial away and back to previous speed setting to resume mixing and time recording if mixer head is lower down within 5 minutes.

If the mixer head is not lower down for 5 minutes or more, to restart the motor, turn the dial to off first, then dial to required speed setting. Time recording will start from 0.

To turn the mixer off, turn the dial to the OFF position and unplug the appliance.

### ELECTRONIC PROTECTION CUT-OFF - CURRENT OVERLOAD

The mixer is equipped with an electric protection cut-off and will automatically stop operating if the motor is stalled or overloaded. This is normally a result of excessive ingredients being processed at one time. Should the mixer go into this mode, the LED indicator band will flash and the error message "E1" will flash on the LCD screen and the buzzer will beep 3 times.

If this error occurs, turn the speed control dial to the OFF position, switch the appliance off at the power outlet and unplug the cord. Remove some of the ingredients in the mixing bowl and then restart the mixer.

#### THERMO CUT-OFF -TEMPERATURE OVERLOAD

The mixer is equipped with a self-resetting safety device which safeguards against overheating the motor with excessive loads. If overheating occurs, the mixer will automatically activate the overheating protection device and the motor will switch itself off. Should the mixer go into this mode, the LED indicator band will flash and the error message "E2" will flash on the LCD screen and the buzzer will beep 3 times.

If this error occurs, turn the speed control dial to the OFF position, switch the appliance off at the power outlet and unplug the cord. Wait at least 15 minutes before restarting the mixer.

#### DISASSEMBLING THE MIXER

- When mixing is complete, turn the speed control dial to the OFF/STANDBY position, switch the appliance off at the power outlet and unplug the cord.
- Remove splash guard if assembled. Separate pour spout then slide main ring out of position.
- Raise the mixer motor head by depressing the tilt back button and lift the mixer motor head up until it tilts back and locks into the open position.
- Remove the beater/dough hook/whisk attachment by holding the mixer motor head and pressing the attachment upwards on the spindle. Turn the attachment anticlockwise to release it from the pin on the spindle.
- Use a soft plastic spatula to remove mixture from the beater, dough hook or whisk attachment.

#### NOTE

When lowering or lifting the mixer, always support the motor head with your other hand to prevent from free-falling.

- Remove the mixing bowl from the indented bowl locking recess of the mixer base and turn anti-clockwise until the bowl releases. Use a soft plastic spatula to remove mixture from the mixing bowl.
- Lower the mixer motor head by pressing the RELEASE button and pushing the mixer motor head down until it locks into the horizontal (closed) position.

### M WARNING

Avoid contact with beater/dough hook/ whisk during operation. Keep hands, hair, clothing, spatulas and other utensils away from beater/dough hook/ whisk to prevent personal injury or damage to the mixer.

## CARE, CLEANING & STORAGE

of your Breville product

#### CARE, CLEANING & STORAGE

#### CLEANING AFTER USE

- Always ensure the speed control dial is in the OFF position, the mixer is switched off at the power outlet and the power cord is unplugged.
- Remove the beater, dough hook or whisk attachment and mixing bowl from the mixer. Follow instructions in the Assembly and operation section of this booklet.
- Wipe the mixer motor head and mixer stand with a soft, damp cloth then dry thoroughly.

Wipe any excess food particles from the power cord. Wash the bowl, beater, dough hook, and whisk in warm soapy water with a soft cloth or they can be washed in the dishwasher. Rinse and dry thoroughly.

#### NOTE

1

Do not use abrasive scouring pads or cleaners when cleaning the mixing bowl, flat beater, dough hook or whisk as these may scratch the surface. Also ensure that the attachments are not soaked in water for extended periods of time, for example several hours or overnight, as this may damage the finish.

#### NOTE

Do not wash or immerse the mixer motor head and mixer base in water or any other liquid. Clean with a soft, damp cloth and dry thoroughly. Do not allow water or any liquid to enter the gear system as damage may result.

#### SCRAPER BEATER

- Wash the scraper beater in warm, soapy water using a soft cloth or a soft bristled brush. Rinse and dry thoroughly.
- The scraper beater can also be washed in the dishwasher (top shelf only).
- A small bottle brush can be used to clean inside the neck of the scraper beater if needed.

#### STORAGE

Your Scraper Mixer Pro should be kept in a convenient position on your kitchen bench top or in an accessible cupboard.

Always ensure the speed control dial is in the OFF position, the mixer is switched off at the power point and the power cord is unplugged.

Store the mixing bowl in the bowl locking recess in the mixer base.

Place the attachments inside the mixing bowl and lower the mixer motor head into the horizontal (closed) position.

The motor head cannot be taken off the base for any purpose.

## MEASURING & WEIGHING

for your Breville product

#### MEASURING & WEIGHING

Care should be taken when weighing and measuring ingredients to achieve accuracy and consistency.

| AUSTRALIAN METRIC<br>MEASUREMENTS | ML  |
|-----------------------------------|-----|
| l teaspoon                        | 5   |
| l tablespoon                      | 20  |
| l cup                             | 250 |

| NEW ZEALAND METRIC<br>MEASUREMENTS | ML  |
|------------------------------------|-----|
| l teaspoon                         | 5   |
| 1 tablespoon                       | 15  |
| l eup                              | 250 |

Recipes in this instruction book have been developed using Australian metric weights and measurements.

The New Zealand tablespoon is 5ml less than the Australian tablespoon, so care should be taken when measuring ingredients to compensate for the variance.

For example, 1 Australian tablespoon = 1 New Zealand tablespoon + 1 New Zealand teaspoon.

It is important to note that New Zealand ingredients, especially flour and yeast, can differ from Australian equivalents.

#### METRIC WEIGHING SCALES

For consistent results it is recommended that a Breville kitchen scale (for details visit www.breville.com.au) be used to weigh larger quantities as they provide greater accuracy than measuring cups.

Tare (zero) the scales with the container in position then spoon or pour ingredients in until the desired weight is achieved.

#### METRIC MEASURING CUPS AND SPOONS

If using graduated metric measuring cups, it is important to spoon the dry ingredients loosely into the required cup. Do not tap the cup on the bench or pack the ingredients into the cup unless otherwise directed. Level the top of the cup with a knife. When using graduated metric measuring spoons, level the top of the spoon with a straight edged knife or spatula.

#### METRIC LIQUID MEASURING JUGS

If using a graduated, metric measuring jug, place jug on a flat surface and check for accuracy at eye level.

#### NOTE

Water weighs approximately the same amount in grams as it measures in millilitres.

#### **MEASURING & WEIGHING**

The following oven temperature settings are included as a guide. These settings may need to be adjusted to suit the individual oven.

| THERMOSTAT SETTINGS<br>DESCRIPTION OF OVEN<br>TEMPERATURES | °C ELEC | TRIC °F | °C  | GAS | °F  | GAS MARK |
|------------------------------------------------------------|---------|---------|-----|-----|-----|----------|
| Very slow                                                  | 120     | 250     | 120 |     | 250 | 1        |
| Slow                                                       | 150     | 300     | 150 |     | 300 | 2        |
| Moderately slow                                            | 170     | 325     | 160 |     | 325 | 3        |
| Moderate                                                   | 180     | 350     | 180 |     | 350 | 4        |
| Moderately hot                                             | 200     | 400     | 190 |     | 375 | 5        |
| Hot                                                        | 220     | 425     | 200 |     | 400 | 6        |
| Very hot                                                   | 230     | 450     | 230 |     | 450 | 7        |

#### NOTE

If using fan forced ovens be sure to turn the temperature down by 15-20  $^{\circ}\text{C}.$  Also check recipes at the back of this book.

17/09/13 3:42 PM

## **HINTS & TIPS**

for your Breville product

#### •

#### HINTS & TIPS

#### HINTS AND TIPS FOR BETTER BAKING

- Check the ingredients and read the recipe before starting to bake.
- Weigh and measure ingredients correctly.
- Variations may occur in raw ingredients use so adjust other ingredients and baking times if required.
- Preheat oven before starting recipe preparation, this will ensure the correct temperature is achieved before baking starts.
- Temperature and cooking times may vary with some ovens so adjust accordingly. If using a fan forced oven reduce the temperatures in the recipes by 10-20°C.
- When mixing, start the mixer at a lower speed then gradually increase to the recommended speed in the recipe especially when adding dry ingredients.
- When using smaller quantities turn off the mixer from time to time and scrape the bowl with a spatula.
- Ensure beaters and mixing bowl are clean and free of fats when whipping egg whites as these will impede aeration.
- Spray trays and cake pans with an oil spray and line with baking paper; this will make removing your food easier.
- Butter should be softened at room temperature to make creaming butter and sugar easier.
- Keep surfaces and ingredients chilled when making, handling or rolling out pastry. Butter for pastry making should be kept refrigerated.

- Avoid stretching pastry when rolling out as it will shrink when baking. Use light, even strokes in one direction and avoid pressing down hard on the rolling pin. Where possible, rest pastry in the refrigerator before baking.
- Eggs should be at room temperature to give better volume when whipping.
- Break eggs individually into another container before adding to other ingredients to avoid potential spoilage.
- Separate egg whites carefully to avoid inclusion of egg yolks. Egg yolks contain fat and will prevent successful whipping of egg whites.
- Rinse beaten egg residue from beater and mixing bowl or other utensils with cold water immediately after use. Using hot water will set the egg and make removal difficult.
- Test if cakes are cooked 3-4 minutes before end of recommended cooking time by inserting a wooden skewer into the centre of the cake. The skewer should come out clean or with small dry crumbs on it.
- For crisper results when baking biscuits, remove the baking trays from the oven and placed directly onto wire racks.
   Move the biscuits slightly away from their baked position on the trays and cool completely before removing.

#### HINTS AND TIPS FOR CAKE AND PASTRY MAKING

Flour, such as plain, self raising and wholemeal, used for cake and pastry making should be lower in protein (gluten) than flour used for bread making.

Plain flour has a lower protein (gluten) content and gives baked products, such as cakes, muffins, pastries, scones and pancakes, a softer texture.

Self-raising flour is a blend of plain flour and raising agents such as baking powder. Self raising flour can be used in recipes to replace plain flour and baking powder. To make 1 cup self-raising flour sift together 1 cup plain flour and 2 teaspoons baking powder.

Wholemeal flour contains more parts of the whole wheat grain – flour, bran and wheat germ – and can be used in muffins, breads and pie cases but will have a denser texture.

Corn flour is made from maize (corn) and is used in some baked products to give a finer texture and can also be used as a starch to thicken sauces and desserts. Wheaten cornflour is recommended when making sponge cakes.

Rice flour is derived from rice and is used to give a finer texture in baked products such as shortbread biscuits.

Baking powder is a mixture of cream of tartar and bicarbonate of soda and is used as a raising agent in baking.

Bicarbonate of soda also known as baking soda is an ingredient in baking powder and can be used as an additional raising agent or to darken some baked products.

Butter will give particular flavour and soft texture to baked products. Margarine can replace butter to give a similar result. Oil can be used in some baking to replace butter but will give texture and flavour differences. Eggs should be at room temperature to give better volume when making cakes and sponges. Standard 60g eggs were used in the recipes.

Milk should be full cream unless specified. Light, low fat or skim milk can be used but will give texture and flavour differences.

Sugar (white crystal sugar) is used to give flavour, texture and colour to baked products. Caster sugar is often used in baking as it is easier to dissolve when creaming butter and sugar. Brown sugar is also easy to dissolve and can be used to give a different flavour and texture. The large crystals of raw sugar are slower to dissolve and can be suitable for baked products such as muffins.

#### HINTS & TIPS

| SPEED SETTING     | ATTACHMENT | MIXING TASK                         | FOR                                                                                            |
|-------------------|------------|-------------------------------------|------------------------------------------------------------------------------------------------|
| Kneading/Folding  | 5          | Kneading/folding                    | Bread dough                                                                                    |
| Creaming/Beating  | ♦          | Beating/creaming or<br>light mixing | Packet cake mixes,<br>muffins. Creaming<br>butter and sugar,<br>cream cheese,<br>heavy batters |
| Whipping/Aerating |            | Whipping/aerating                   | Cream, egg white/<br>meringues,<br>marshmallow                                                 |

#### USING THE SCRAPER BEATER

The scraper beater can be used for a variety of mixing tasks. These include creaming butter and sugar, pastry, cake and biscuit batter, thin batter, icing and frosting. Due to the efficient mixing action of the scraper beater, the mixing time of many recipes will be reduced. Refer to the chart below for approximate mixing times for common mixing tasks.

#### NOTE

Longer mixing times may be required for larger or double quantities.

Do not use the scraper beater for mixing heavy dough (bread, pizza etc) or whisking egg whites.

The timings suggested are to be used as a guide only.

When adding flour to the mixing bowl, always use splash guard and ensure the mixer is on the folding/kneading setting. This will prevent flour from escaping the bowl.

#### TIP

The scraper beater can also be used as a spatula when removing cake, biscuits or other mixtures form the mixing bowl (see Fig. 3).

#### HINTS & TIPS

| MIXTURE                              | MIXING TASK                                                              | APPROX. MIXING TIME  1-4 minutes (or until mixture is pale and creamy)                                         |  |
|--------------------------------------|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|--|

#### TROUBLESHOOTING

| PROBLEM                                                                    | EASY SOLUTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Machine will<br>not work when<br>switched ON                               | Always ensure the speed control dial is in the OFF position before start.      The temperature overload protection (thermo cut-off) device has not been activated automatically, allow more time for the motor to cool down.                                                                                                                                                                                                                                                                                                                                                                                     |
| Cannot set the<br>time on the<br>count-down timer                          | <ul> <li>Always ensure the speed control dial is in the OFF position<br/>before trying to set the count-down time.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Mixer suddenly<br>switches off during<br>mixing                            | <ul> <li>The mixer has been stressed by overloading or stalling. The mixer will automatically activate the overload protection button and the unit will switch itself off. When this happens it is recommended that the unit is switched off at the power outlet and unplugged. The safety devices will the be reset and the Scraper Mixer Pro is ready to use again.</li> </ul>                                                                                                                                                                                                                                 |
| "E1" error message<br>is flashing on the<br>count-up/down<br>timer display | • The mixer will automatically stop operating if the motor is stalled. If this occurs, the 'El' error message will flash on the count-up/down timer display. This is an electronic safety feature. This is normally a result of too much ingredients being processed at one time. Try removing some of the ingredients from the bowl. To continue mixing, turn the speed control dial to the off position and unplug the mixer from the power outlet. Then plug the mixer into the power outlet and use as normal.                                                                                               |
| "E2" error message<br>is flashing on the<br>count-up/down<br>timer display | This may indicate that the motor has been stressed by overheating with excessive load. The mixer is fitted with a self-resetting safety device which safeguards against overheating on the motor with excessive loads. If overheating occurs, the mixer will automatically activate the overheating protection device and the motor will switch itself off. When the overheating protection is activated, unplug the mixer from the power outlet for at least 15 minutes to allow the unit to cool. Turn the speed control dial to the OFF position then plug the mixer into the power outlet and use as normal. |
| Noise is heard<br>when scraper<br>beater is mixing                         | <ul> <li>When ingredients are in the mixing bowl, the scraper beater may make a slight noise as it scrapes the sides and bottom of the bowl. This is normal and should not cause concern. Do not turn the mixer on with the scraper beater in place if the mixing bowl is empty. This will cause the scraper beater to make a loud noise as it scrapes the bowl.</li> </ul>                                                                                                                                                                                                                                      |

**(** 

## **RECIPES**

#### LEMON SHORTBREAD

Makes approximately 22

#### INGREDIENTS

250g butter, softened ½ cup (110g) caster sugar 1 tablespoon finely grated lemon rind 2 ½ cups (335g) plain flour

#### Icing

1 cup (160g) icing sugar, sifted 1 tablespoon lemon juice 1 teaspoon milk or water

#### METHOD

1

- Preheat oven to 150°C. Line two baking trays with baking paper.
- Assemble mixer with the scraper paddle. Combine butter and caster sugar and lemon rind in mixer bowl.
- Turn the mixer to LIGHT MIXING setting, beat until butter, sugar and rind start to combine. Gradually increase to CREAM/BEAT setting. Beat mixture for about 5 minutes or until butter is very pale in colour.
- Reduce speed to LIGHT MIXING and gradually add flour. Once all flour is added increase speed slightly to mix thoroughly for 30 seconds.
- Lightly knead dough on a flat surface.

#### TIP

The buttery texture of the mixture should not need a floured surface but if very sticky on your work surface then lightly flour the surface.

- Using a lightly floured rolling pin roll
  the mixture out to a 1cm thickness.
  Using a 5cm round pastry cutter cut
  rounds of shortbread and place onto
  baking trays. Reshape shortbread
  mixture to get as many rounds as
  possible. Refrigerate shortbread rounds
  for 15 minutes.
- Bake rounds in preheated oven for about 25-30 minutes or until firm. Allow to cool on trays for 5 minutes before transferring to a wire rack. Once cool drizzle with icing.
- 8. To make icing, combine icing sugar, lemon juice and water in a small bowl. If mixture is still thick add another ¼ ½ teaspoon water. Mix well to combine. Spoon mixture into a zip lock bag. To drizzle over shortbread cut the edge of one corner of the bag to make a small opening and gently squeeze icing.

#### GINGERBREAD

Makes 15-20

#### INGREDIENTS

90g butter

¼ cup firmly packed soft brown sugar

¼ teaspoon salt

150g treacle

1 tablespoon ground ginger

¼ teaspoon ground cloves

1/2 teaspoon ground cinnamon

1/2 teaspoon ground nutmeg

1 1/2 cups (225g) plain flour

¼ teaspoon bicarbonate of soda

#### METHOD

- Preheat oven to 170°C. Line two trays with baking paper.
- Assemble mixer using scraper beater, Add the butter, sugar, salt, treacle and spices in mixer bowl. Turn the mixer to CREAM/BEAT setting and beat for 1 minute.
- Reduce speed to KNEAD/FOLD setting; add remaining ingredients and mix until mixture just forms a thick dough.
- Place dough onto a floured surface. Roll out to a 5mm thickness. Using a shaped cutter approximately 10-12cm in size cut out shapes and place onto baking trays.
- Bake for about 13-15 minutes. Cool for 5 minutes before transferring to a wire rack. Repeat with remaining dough.
- For decorating gingerbread use the royal icing recipe on page 49.

#### TIP

To make a gingerbread house the mixture needs to be doubled. We recommend using the standard paddle if doubling the recipe.

#### CARAMEL CHIP PEANUT BUTTER COOKIES

Makes 36

#### INGREDIENTS

125g butter, softened

1 cup (280g) crunchy peanut butter

1 cup (220g) firmly packed brown sugar

1 eaa

1 % cups (260g) plain flour

1/2 teaspoon baking powder

1/2 cup (70g) roasted salted peanuts, chopped

1/2 cup (95g) caramel choc chips (see note)

#### METHOD

- Preheat oven to 170°C fan forced. Line two baking trays with baking paper.
- Assemble mixer using scraper beater. Combine butter, peanut butter and brown sugar in the mixer bowl. Slowly turn mixer to LIGHT MIXING setting and for 30 seconds. Increase speed to CREAM/BEAT and beat for 2 minutes until pale and creamy.
- Reduce speed to LIGHT MIXING setting; add egg and beat 30 seconds.
   Sift the flour and baking powder over the butter mixture then beat on KNEAD/FOLD setting for about 30 seconds or until just combined.
- 4. Remove the bowl from the mixer and stir through the peanuts and caramel choc chips. Roll tablespoons of mixture into balls. Place onto prepared baking trays, allowing room for spreading. Flatten with fingertips to about 1cm thick. Bake for 15–18 minutes or until golden. Allow to stand on trays for 5 minutes before transferring to a wire rack to cool. Repeat with remaining cookie mixture.

#### NOTE

Caramel choc chips are available in baking section of most supermarkets, alternately use white, milk or dark choc chips.

#### PASSIONFRUIT YO YO'S

Makes 20 sandwiched biscuits

#### INGREDIENTS

250g butter, softened ½ cup (80g) icing sugar 1 teaspoon vanilla extract 1 ½ cups (225g) plain flour <sup>2</sup>/<sub>3</sub> cup (80g) custard powder Extra Icing sugar, for dusting

#### Filling

125g butter, softened 1 ½ cups (240g) icing sugar ¼ cup (60ml) passionfruit pulp

#### METHOD

- Preheat oven to 160°C fan forced. Line two baking trays with baking paper.
   Assemble mixer using scraper beater.
   Add butter, sugar and vanilla in mixer bowl; slowly turn mixer to LIGHT MIXING setting and beat for 1 minute.
- Increase speed to CREAM/BEAT and beat for 3-4 minutes until pale and creamy. Reduce speed to LIGHT MIXING setting; add flour and custard powder and beat until just combined.
- Roll heaped teaspoons of mixture into balls. Place onto prepared baking trays. Press with a floured fork to flatten slightly. Bake for 15–18 minutes or until firm to touch. Allow to stand on trays for 5 minutes before transferring to a wire rack to cool. Repeat with remaining biscuit mixture.
- 4. For the filling; Assemble mixer using scraper beater. Combine the butter and icing sugar in the mixer bowl. Slowly turn mixer to AERATE/WHIP setting and beat 1 minute, increase speed to CREAM/BEAT setting and beat further 1-2 minutes until thick and pale. Fold through the passionfruit pulp.
- Spread half the biscuits with passionfruit filling and sandwich together with remaining biscuits. Dust with extra icing sugar just before serving serve.

#### RED VELVET CUPCAKES

Makes 20

#### INGREDIENTS

2 % cups (410g) plain flour
% cup (25g) cocoa powder
1½ teaspoon baking powder
% teaspoon salt
185g butter, softened
1½ cups (330g) caster sugar
2 eggs
% cup (180g) sour cream
1 tablespoon pillar box red food colouring
% cup (125ml) buttermilk
% teaspoon bicarbonate of soda
1 teaspoon white vinegar
Cream cheese frosting, to ice

#### METHOD

- Preheat oven to 160°C fan-forced. Line two x 12 hole ½ cup capacity muffin trays with 20 cupcake liners.
- Sift flour, cocoa, baking powder and salt onto a sheet baking paper.
- Assemble mixer using scraper beater. Add butter and sugar to mixer bowl. Beat on LIGHT MIXING setting for 1 minute then increase speed to CREAMING setting and beat for 2 minutes until pale and creamy.
- 4. With the mixer on LIGHT MIXING setting add the eggs one at a time then add the sour cream. Combine food colouring and milk together and pour half into the batter. Beat in half the flour mixture, then repeat with remaining milk and flour mixtures. Turn the mixer to KNEAD/FOLD setting, combine the bi-carb and vinegar and pour into the batter, mixing 20 seconds.
- Spoon into paper cases, filling each about two-thirds full. Bake for 20–25 minutes or until a skewer inserted in centre of cupcakes comes out clean.
   Stand in pans for 5 minutes then remove to a wire rack to cool completely.
- Once cool top with cream cheese frosting on page 50.

#### RECIPES

#### RASPBERRY CUPCAKES

Makes 12

#### INGREDIENTS

125g unsalted butter, softened ¼ cup (120g) caster sugar ½ teaspoon vanilla extract 2 eggs

<sup>2</sup>/<sub>3</sub> cup (160ml) milk 1 cup (125g) fresh or frozen raspberries Cream cheese or buttercream icing, to serve

#### METHOD

- Preheat oven to 180°C no fan (160°C with fan). Line a 12 hole ½ cup capacity muffin tray with cupcake liners.
- Assemble mixer using scraper beater.
   Add butter and sugar to mixer bowl.
   Turn the mixer to slowly to
   CREAM/BEAT setting and beat for
   1 minute. Add vanilla then eggs one at
   a time. Reduce speed to KNEAD/FOLD
   setting and add half the milk. Beat in
   half the flour mixture, then repeat with
   remaining milk and flour mixtures. Do
   not over beat. Add raspberries and fold
   through once.
- Divide mixture into patty cases. Bake for about 20 minutes or until a wooden skewer inserted into centre of the cupcakes comes out clean. Turn onto wire racks to cool.
- Once cool top with cream cheese or buttercream icing on page 50.

#### TIP

If using frozen raspberries, thaw first on paper towelling.

#### RICOTTA PANCAKES

Makes 6 to 8

#### INGREDIENTS

3 eggs, separated
2 tablespoons caster sugar
200g fresh ricotta
½ cup (125ml) milk
¾ cup (110g) self-raising flour
1 ½ teaspoons baking powder
Unsalted butter for greasing
fresh berries, to serve
maple syrup, to serve

#### METHOD

- Assemble mixer using the whisk attachment. Add egg whites to mixer bowl. Turn the mixer to AERATE/WHIP setting and whisk egg whites until soft peaks form. Add sugar and whisk for 1 minute. Transfer egg white mixture to another bowl.
- Place egg yolks, ricotta and milk into bowl of mixer. Still using the whisk attachment, turn the mixer to CREAM/ BEAT setting and mix until combined. Reduce speed and add sifted flour and baking powder and mix until just combined. Return egg white mixture back into mixer bowl and mix on KNEAD/FOLD setting until just combined.
- Heat a heavy base frying pan or griddle over a low to moderate heat. Lightly grease with butter.
- Spoon about 2 heaped tablespoons of the mixture into pan and cook until golden brown on both sides.
- Serve with fresh blueberries and maple syrup.

#### TIP

For berry pancakes pour mixture into pan; top with several fresh berries before flipping over and cooking other side.

#### LEMONADE DATE SCONES

Makes 18

#### INGREDIENTS

Plain flour, for dusting 3 cups (450g) self-raising flour 1 cup (160g) chopped dates 200ml thickened cream 200ml lemonade

#### Cinnamon sugar butter

100g butter, softened ¼ cup (40g) icing sugar 1 teaspoon ground cinnamon

#### METHOD

- Preheat oven 230°C fan forced. Dust a flat oven tray with plain flour.
- Assemble mixer using the dough hook. Sift the flour into mixer bowl, add the dates, cream and lemonade. Turn the mixer to KNEAD/FOLD setting and mix 30 seconds to 1½ minutes until scone mixture just comes together. Turn onto a lightly floured surface and knead gently until base is smooth.
- Press dough out to 2cm-thick. Use a 5cm round scone cutter to cut as many scones from dough as possible. Place onto tray just touching each other. Press dough together gently and repeat using the remaining dough. Bake 15 minutes until golden and well risen. Serve hot with cinnamon sugar butter or cream.
- For the cinnamon sugar butter;
   Assemble mixer using scraper beater, combine all the ingredients in mixer bowl. Slowly turn mixer to CREAM/BEAT setting and beat for 2-3 minutes until well combined.

#### BANANA CAKE WITH LEMON ICING

Serves 10

#### INGREDIENTS

200g butter, softened 1 ½ cups (330g) caster sugar 2 eggs 1½ cups (approx 3 large) very ripe mashed

1 teaspoon vanilla extract ½ cup (125ml) buttermilk 2 ½ cups (335g) self-raising flour 1 teaspoon ground cinnamon

#### METHOD

- Preheat oven to 180°C no fan (160°C with fan). Grease and line base and sides of a 23cm round cake pan with baking paper.
- Assemble mixer using scraper beater. Add butter and sugar to the mixer bowl. Slowly turn mixer to CREAM/BEAT setting and beat for about 1 minute or until well combined. Add eggs, one at a time, beating well between each addition. Add bananas and vanilla and mix well
- Reduce speed to KNEAD/FOLD setting; add half the buttermilk. Beat in half the sifted flour and cinnamon, then repeat with remaining milk and flour mixtures; mix until just combined.
- Spoon mixture into prepared pan and bake for about 60 minutes or until a wooden skewer inserted into centre comes out clean.
- Allow cake to cool in pan for 5 minutes before transferring to a wire rack to cool completely.
- Serve with lemon icing on page 49.

17/09/13 3:42 PM

#### LAMINGTONS

Makes 24

#### INGREDIENTS

1/2 cup (75g) self-raising flour 1/2 cup (75g) plain flour 1/2 cup (75g) cornflour 6 eggs 1 cup (220g) caster sugar 1 tablespoon boiling water

3-4 cups (240g-320g) desiccated coconut

## Chocolate icing

4 cups (640g) icing sugar mixture 2/3 cup (70g) cocoa powder 1 cup (250ml) boiling water

- Preheat oven to 160°C fan forced. Grease and line 4cm deep, 22 x 28cm (base) baking pan with baking paper, allowing it to overhang slightly. Sift flours together onto a sheet baking paper. Repeat twice more.
- 2. Assemble the mixer using the whisk attachment. Crack eggs into the mixer bowl. Add the sugar. Slowly turn mixer to AERATE/WHIP setting and whisk for 7-8 minutes, or until the mixture is thick and pale.
- 3. Sift flour mixture again over egg mixture, reduce speed to KNEAD/FOLD setting and whisk 20-30 seconds until just combined. With mixer on KNEAD/FOLD setting pour the water down the side of the bowl, whisk 10 seconds.
- 4. Spread sponge mixture into the pan and bake, for 20-25 minutes or until sponge springs back when gently touched in the centre. Set aside and allow to cool in the pan. Turn onto a tray lined with a teatowel. Freeze 4-5 hours or overnight if time permits.

- 5. Trim the edges if necessary then cut the sponge into 24 x 5cm squares. Spread the coconut over a tray.
- 6. For the chocolate icing, sift the icing sugar and cocoa powder into a medium bowl. Add the water and stir until smooth. Place the bowl over a saucepan of hot water (this helps keep icing soft and runny).
- 7. Dip 1 piece of cake at a time into the warm icing to coat. Allow excess to drip back into the bowl. Roll the cake in the coconut and place on a wire rack to set. Repeat with the remaining cake, icing and coconut.

#### ORANGE SOUR CREAM CAKE

Serves 8

#### INGREDIENTS

1 navel orange 150g butter, softened <sup>2</sup>/<sub>3</sub> cup (150g) caster sugar 2 tablespoons orange marmalade 3 eggs

2/s cup (160g) lite sour cream
1 ¼ cups (185g) self-raising flour
¼ cup (35g) plain flour
1 cup (160g) pure icing sugar, sifted
Double cream, to serve

- Preheat the oven to 160°C fan forced. Grease base and sides of 20cm (base) round cake tin. Line the base with baking paper.
- Assemble mixer using scraper beater. Remove rind from orange and juice orange; reserve juice. Combine orange rind, butter, caster sugar and orange marmalade in the mixer bowl and beat on LIGHT MIXING for 1 minute then increase speed to CREAM/BEAT for 2 minutes until pale and creamy.
- With the mixer on LIGHT MIXING setting add the eggs 1 at a time then add the sour cream and beat 20 seconds.
   Sift the flours together into the bowl and mix on KNEAD/FOLD setting for 30-45 seconds until batter in smooth.

- Spoon into the tin and smooth the top. Bake for 50-55 minutes or until a wooden skewer inserted into centre comes out clean. Stand the cake in the tin for 15 minutes then turn onto a wire rack to cool.
- For the icing; combine the icing sugar and 1½ tablespoons of the orange juice in a small saucepan over medium heat. Stir until smooth and runny. Pour the icing over the cake allow to set.

## GLAZED CITRUS POPPY SEED CAKE

Serves 16

#### INGREDIENTS

2/s cup (160ml) milk
4/s cup (80g) poppy seeds
250g butter, softened
1 1/s cups (330g) caster sugar
1 tablespoon finely grated orange rind
1 tablespoon finely grated lime rind
1 teaspoon vanilla extract
4 eggs
2 cups (300g) self-raising flour

#### Glaze

2 teaspoons orange rind ½ cup (125ml) orange juice ½ cup (125ml) lemon juice 1 cup (220g) caster sugar

#### METHOD

- Preheat oven to 160°C. Grease and line base and sides of a 23cm round cake pan with baking paper.
- Combine milk and poppy seeds in a small bowl and soak for 10 minutes.
- Assemble mixer using scraper beater. Add butter and sugar to mixer bowl. Slowly turn mixer to CREAM/BEAT setting and beat for 1-2 minutes or until pale and creamy.

#### NOTE

As this is a large quantity of butter and sugar some may beat over the scraper. Mixture may need to be pushed down once.

 Add rind and vanilla and beat till combined. Add eggs one at a time, beating well between each addition.

- Reduce to KNEAD/FOLD setting and add half the poppy seed mixture. Beat in half the flour mixture, then repeat with remaining poppy seed and flour mixtures; mix until just combined.
- Spread mixture into prepared pan and cook in oven for about 1 hour and 20 minutes or until a wooden skewer inserted into centre comes out clean.
- Meanwhile combine the rind, juices and sugar in a small saucepan. Stir over a low heat until the sugar has dissolved; bring to the boil, simmer for 2 minutes.
- Turn cake out on to a cooling tray with a baking tray underneath. Using a wooden skewer, poke several holes into the cake then pour the hot syrup over the hot cake.

#### APRICOT AND ALMOND TEA CAKE

Serves 10

#### INGREDIENTS

1kg apricot halves in natural juice

4 eggs

2 cups (440g) caster sugar

1/2 teaspoon vanilla extract

1 cup (250ml) sunflower, canola or light olive oil

3 cups (450g) plain flour

1 teaspoon baking powder

¼ cup flaked almonds

icing sugar, for dusting

#### METHOD

- Preheat oven to 150°C fan forced.
  Grease and line the base and sides of
  a 4cm deep, 22cm x 28cm slab pan with
  baking paper, allowing a 2cm overhang
  at both long ends.
- Drain the apricots reserving 1 cup (250ml) of the juice.
- Assemble mixer using the whisk attachment. Add eggs, sugar and vanilla to the mixer bowl. Slowly turn mixer to AERATE/WHIP setting; whisk for 6-7 minutes until pale and thick. Reduce speed to KNEAD/FOLD setting; pour in the 1 cup juice and oil and whisk for 30 seconds.
- Sift the flour and baking powder together over the egg mixture. Whisk on KNEAD/FOLD setting a further 30 seconds until just combined. Pour cake batter into the cake pan. Stand for 5 minutes (this helps thicken the batter)
- Top with the apricots and sprinkle over the almonds. Bake for 55–60 minutes or until a wooden skewer inserted into the centre comes out clean. Stand in the pan for 30 minutes then carefully lift onto a wire rack to cool. Dust with icing sugar and serve.

#### RASPBERRY JAM ROLL

Serves 6

#### INGREDIENTS

3 eggs

1/2 cup (110g) caster sugar

2/s cup (100g) self-raising flour

1 tablespoon cornflour

1 tablespoon white sugar, to sprinkle

1/2 cup raspberry jam

1/3 cup fresh or frozen raspberries

- Preheat oven to 180°C fan forced. Grease and line base and sides of a 25 x 30cm (base) swiss roll pan with baking paper, allowing 2cm overhang along both long ends.
- Assemble mixer using the whisk attachment; add eggs and sugar to the mixer bowl. Slowly turn mixer to AERATE/WHIP setting and whisk for 5-6 minutes, or until the mixture is thick and pale.
- Sift flour and cornflour together over the mixture. Turn the speed to KNEAD/ FOLD setting and whisk 20-30 seconds until just combined.
- Spread sponge mixture into the pan and bake, for 10-12 minutes or until sponge springs back when touched in centre and edges start to shrink from sides.
- Meanwhile, place a sheet of baking paper onto a clean tea-towel. Sprinkle with a little white sugar. Turn hot cake out onto the sugared paper. Remove paper lining and starting from 1 short side, gently roll the sponge and paper up. Roll in the clean tea towel and set aside to cool completely.
- Unroll the sponge and spread with jam. Scatter over the raspberries. Re-roll sponge, this time without the paper, to enclose the filling. Place onto a serving plate and serve.

#### NANNA'S CARROT CAKE

Serves 10

#### INGREDIENTS

250g butter, softened

1 1/2 cups (330g) caster sugar

3 eggs

2 cups (300g) self-raising flour

2 teaspoons ground cinnamon

1 teaspoon bicarbonate soda

34 cup (180ml) buttermilk

1 cup (80g) desiccated coconut

2 cups (approx 3 carrots) finely grated carrot

1 x 440g can crushed canned pineapple in juice, well drained

1 cup chopped walnuts

Cream cheese frosting, to serve

#### METHOD

- Preheat oven to 180°C no fan (160°C with fan). Grease and line base and sides of 23cm square cake pan with baking paper.
- Assemble mixer using scraper beater.
   Add butter and sugar to the mixer bowl.
   Slowly turn mixer to CREAM/BEAT
   setting and beat for about 1 minute or
   until well combined.

#### NOTE

As this is a large quantity of butter and sugar some may beat over the scraper. Mixture may need to be pushed down once.

 Add eggs, one at a time, beating well between each addition.

- Reduce speed to KNEAD/FOLD setting; add sifted flour, cinnamon and bi-carb then and add half the buttermilk. Beat in half the coconut, then repeat with remaining buttermilk and coconut mixtures; mix until just combined. Lastly on same setting fold through carrot, pineapple and walnuts until just combined.
- Spoon mixture into prepared pan and bake for about 1 hour and 5 minutes or until a wooden skewer inserted into centre comes out clean.
- Allow cake to cool in pan for 5 minutes before transferring to a wire rack to cool completely.
- Once cake is cool spread with cream cheese frosting on page 50 if desired.

#### PUMPKIN SULTANA LOAF

Serves 8

#### INGREDIENTS

1 cup cooled mashed butternut pumpkin (see note)

100g butter, softened

1 ¼ cups (275g) firmly packed soft brown sugar

2 tablespoons maple syrup

2 teaspoons mixed spice

2 eggs

2 cups (300g) self-raising flour

1/2 teaspoon bicarbonate of soda

1/2 cup (80g) sultanas

1/2 cup (60g) chopped pecan halves

Extra pecan halves, to decorate

#### METHOD

- Preheat oven to 170°C fan forced. Grease and line base and sides of a 6cm deep, 10cm x 20.5cm (base) loaf pan.
- Assemble mixer using scraper beater.
  Combine butter, sugar, maple syrup and
  mixed spice in the mixer bowl. Slowly
  turn mixer to LIGHT MIXING setting
  and for 1 minute. Increase speed to
  CREAM/BEAT setting and beat for
  2-3 minutes until pale and creamy.
  Reduce speed LIGHT MIXING setting,
  add eggs one at a time then pumpkin
  and, beat for 30 seconds (mixture may
  curdle a little but it will be fine once
  flour added).
- Sift the flour and bicarbonate of soda over the pumpkin mixture then beat on KNEAD/FOLD setting until just combined. Remove the bowl from the mixer and fold through sultanas and chopped pecans.

4. Spoon into prepared pan. Smooth surface. Decorate with pecans if desired. Bake for 50-55 minutes or until a skewer inserted into the centre comes out clean. Stand in pan for 30 minutes then turn onto a wire rack to cool. Serve warm or cold spread with butter or cream cheese.

## NOTE

For 1 cup mashed pumpkin; Peel & cut 600 g butternut pumpkins into 3-4cm pieces. Place in a single layer on a microwave-safe plate. Cover with plastic and microwave on High/100% power for 6-8 minutes or until pumpkin is tender. Set aside to cool. Drain any excess water then mash until smooth.

17/09/13 3:42 PM

## CLASSIC SPONGE CAKE WITH JAM AND CREAM

Serves 8

#### INGREDIENTS

2/s cup (100g) wheaten cornflour

1/3 cup (50g) self-raising flour

1 teaspoon cream of tartar

4 eggs

34 cup (165g) caster sugar

300ml cream

1/2 cup strawberry jam, lightly warmed

6-8 fresh strawberries, thinly sliced

Icing sugar, to serve

- Preheat oven to 180°C no fan (160°C with fan). Grease and line bases of 2 x 22cm cake pans with baking paper.
- Sift flours and cream of tartar onto a sheet of baking paper two times and set aside.
- Assemble mixer using the whisk attachment. Add eggs and sugar into mixer bowl. Slowly turn mixer to AERATE/WHIP setting and whisk for about 10 minutes or until the mixture is very thick.
- Remove bowl from mixer and sift flour over the egg mixture a third time.
   Using the mixer's whisk, carefully stir flour through egg mixture until just combined.
- Divide mixture evenly among cake pans; bake in oven about 17-18 minutes or until sponge springs back when gently touched in the centre.

- Allow cakes to cool in pans for 5 minutes before transferring to a wire rack to cool completely.
- Once cool, assemble mixer using the whisk attachment. Add cream to mixer bowl. Slowly turn mixer to CREAM/ BEAT setting for about 1 minute or until just thicked. Top one sponge with warmed jam, fresh strawberries and some of the whipped cream. Top with second sponge. Dust with icing sugar. Serve with remaining cream.

Serves 12-16

#### INGREDIENTS

#### Base

200g dark chocolate, chopped 200g butter, chopped 1 cup brown sugar 2 eggs ½ cup (75g) plain flour ½ cup (35g) self-raising flour ½ cup (40g) desiccated coconut

#### Cheesecake top

500g cream cheese, softened 1 cup (220g) caster sugar 1 teaspoon vanilla extract 2 eggs 300ml thickened cream

- Preheat oven 160°C fan forced. Grease and line a 5cm deep, 28cm (base) slab pan with baking paper, extending 2cm overhang along both long ends.
- Combine chocolate and butter in a small saucepan. Stir constantly over low heat until melted and smooth. Remove from the heat and stir in sugar. Transfer mixture to a bowl, add eggs one at a time, whisking well then stir in the flours and coconut. Spread mixture over the base of the pan and bake for 15 minutes (base will still be soft). Remove from the oven and set aside 15 minutes. Reduce oven 150°C fan forced.
- Assemble mixer using scraper beater.
  Combine cream cheese, sugar and
  vanilla in the mixer bowl. Turn mixer
  to KNEAD/FOLD setting and mix for
  1 minute. Increase speed to LIGHT
  MIXING setting and beat for 2-3
  minutes until creamy. Reduce speed to
  KNEAD/FOLD setting again and add
  eggs 1 at a time then the cream, beat
  20-30 seconds until just combined.
- Carefully pour cheesecake mixture over the lukewarm base. Bake for 35-40 minutes or until cooked, the centre will still wobble slightly. Turn oven off and leave door ajar for 2 hours. Refrigerate overnight. Cut into pieces and serve.

#### PAVLOVA

Serves 8

#### INGREDIENTS

4 egg whites (150g)
1 cup (220g) caster sugar
300ml carton cream
Fresh berries, to serve
Fresh passionfruit pulp, to serve

#### METHOD

- Preheat oven to 140°C no fan (120°C with fan). Mark a 20cm circle onto a sheet of baking paper. Turn paper over and place onto a greased baking tray.
- Assemble mixer using the whisk attachment. Add egg whites to mixer bowl. Slowly turn mixer to AERATE/ WHIP setting and whisk until soft peaks form.
- Gradually add sugar making sure sugar is dissolved between each addition. This can take about 10 minutes.
- Spoon meringue onto paper within the circle; use a spatula to shape into a dome shape.
- Place in oven and bake for about 1 hour or until dry then turn oven off and allow pavlova to cool completely in oven with door slightly ajar.
- Once cool, assemble mixer using the whisk attachment. Add cream to mixer bowl. Slowly turn mixer to CREAM/BEAT setting for about 1-2 minutes or until just thickened. Spread over pavlova and top with berries and passionfruit.

#### CHOCOLATE CAKE

Serves 10

#### INGREDIENTS

4 egg whites (150g)
200g good quality dark chocolate
200g butter, softened
1 cup (220g) caster sugar
1 teaspoon vanilla extract
2 eggs
1 ½ cups self-raising flour

## METHOD

¼ cup cocoa powder

1 ¼ cups buttermilk

- Preheat oven to 180°C no fan (160°C with fan). Grease and line base and sides of a 22cm cake pan with baking paper.
- Melt chocolate in a heatproof bowl over hot water. Set aside.
- Assemble mixer using scraper beater. Add butter, sugar and vanilla in mixer bowl. Slowly turn mixer to CREAM/ BEAT setting; beat for 1-2 minutes or until pale and creamy. Add eggs one and at time, beat until combined. Add melted chocolate and mix until combined.
- Reduce speed to KNEAD/FOLD setting; add sifted dry ingredients and buttermilk in two batches. Spoon mixture into prepared pan and bake for about 1 hour and 10 minutes or until a wooden skewer inserted into centre comes out clean.
- Allow cakes to cool in pan for 5 minutes before transferring to a wire rack to cool completely.
- Serve cake with chocolate ganache on page 49.

Serves 6

#### INGREDIENTS

3 eggs

1/2 cup (110g) caster sugar

2/s cup (100g) plain flour

1 teaspoon baking powder

2 tablespoons cocoa powder

3 teaspoons boiling water

1 tablespoon white sugar, to sprinkle

300ml thickened cream

2 tablespoons icing sugar

1 teaspoon vanilla extract

1 tablespoon icing sugar mixed with

1 tablespoon cocoa powder, for dusting

#### METHOD

- Preheat oven to 180°C fan forced. Grease and line base and sides of a 25 x 30cm (base) swiss roll pan with baking paper, extending 2cm overhang along both long ends.
- Assemble mixer using the whisk attachment. Combine eggs and sugar into mixer bowl. Slowly turn mixer to AERATE/WHIP setting and whisk for 5-6 minutes, or until the mixture is thick and pale.
- Meanwhile, sift flour, baking powder and cocoa powder together onto a sheet baking paper twice. Turn the mixer off and sift the flour mixture for the third time over the egg mixture. Turn the speed KNEAD/FOLD setting and whisk 20-30 seconds until just combined. Pour the water down the side of the bowl and mix 10 seconds.
- Spread sponge mixture into the pan and bake, for 10-12 minutes or until sponge springs back when touched in centre and edges start to shrink from sides.

- 5. Meanwhile, place a sheet of baking paper onto a clean tea towel. Sprinkle with a little white sugar. Turn hot cake out onto the sugared paper. Remove paper lining and starting from 1 short side; gently roll the sponge and paper up. Roll in the clean tea towel and set aside to cool completely.
- Wash and dry mixer bowl. Assemble mixer using the whisk attachment; combine the cream, icing sugar and vanilla in the bowl. Slowly turn mixer to AERATE/WHIP setting and whisk for 40-50 seconds until firm peaks form. Cover and refrigerate until ready to serve.
- Unroll the sponge and spread evenly with the cream. Re-roll sponge, this time without the paper, to enclose the cream. Place onto a serving plate, dust with icing sugar and cocoa powder and serve.

17/09/13 3:42 PM

#### PROFITEROLES

Makes 16

#### INGREDIENTS

100g butter, chopped 1 cup (250ml) water 1 cup (150g) plain flour 4 eggs, lightly beaten 300ml thickened cream 2 tablespoons icing sugar 1 teaspoon vanilla extract

Icing sugar, to serve

- Position 1 shelf just above the centre and 1 shelf just below the centre position in the oven. Preheat oven 220°C fan forced. Line two baking trays with baking paper.
- Combine the butter and water in a medium saucepan over medium-low heat, heat, stirring often, 5 minutes until butter melts. Increase heat to high, bring to a rolling boil (the mixture should start to rise in the pan). As it does, quickly remove from heat, add all the flour, stirring constantly until mixture comes together in a ball and leaves the sides of the saucepan. Transfer the hot dough to bowl of the mixer.
- Assemble mixer using scraper beater. Slowly turn mixer to LIGHT MIXING setting, add a quarter of the egg and beat until well combined; continue adding the egg until the choux pastry is thick and shiny.

- 4. Pipe or spoon choux pastry onto trays allowing room for spreading. Bake for 10 minutes. Reduce oven to 200°C fan forced and bake a further 15-20 minutes, or until the choux is puffed, golden and firm to touch. Allow to cool completely on trays.
- Wash and dry mixer bowl. Assemble mixer using the whisk attachment. Combine the cream, icing sugar and vanilla in the mixer bowl. Slowly turn mixer to AERATE/WHIP setting and whisk for 40-50 seconds until firm peaks form. Cover and refrigerate until ready to serve.
- Cut the profiteroles in half with kitchen scissors. Fill with cream. Dust with icing sugar to serve.

#### MARSHMALLOWS

Makes 24

#### INGREDIENTS

2 cups (440g) caster sugar 200ml lukewarm water 6 teaspoons gelatine ½ cup (125ml) cold water 1 teaspoon vanilla bean paste 2 cups (160g) toasted desiccated coconut

#### METHOD

- Grease and line a 3cm deep, 16.5cm x 26.5cm (base) slab pan, allowing paper to hang over sides.
- Combine the sugar and lukewarm into a saucepan and cook over medium heat, stirring constantly, until sugar dissolves. Brush sides of pan with a wet pastry brush to dissolve any sugar crystals. Bring to boil and boil gently, without stirring for 5 minutes until thermometer reaches 110°C.
- Sprinkle the gelatine over cold water and stir with a fork to combine. Spoon the gelatine mixture into hot sugar syrup and cook, whisking constantly until the gelatine has dissolved then bring to gentle boil. Pour into mixer bowl and set aside for 20–30 minutes to cool to room temperature.

- Add the vanilla to the bowl. Assemble the mixer using whisk attachment. Slowly turn mixer to AERATE/WHIP setting and whisk for 4½-5 minutes, or until the mixture is very thick and white.
- Spoon into the prepared pan and set aside to cool. Once set (about 1 hour in fridge, 2 hours room temp) turn out of the pan and use a wet knife to cut into 24 squares. Toss in coconut and set aside until surface feels dry. Serve.

## TIP

You can replace the coconut with good quality finely grated milk chocolate.

#### ICING AND FROSTINGS

#### ROYAL ICING

Makes about 2 cups

#### INGREDIENTS

2 egg whites pinch cream of tartar 2 ¼ cups pure icing sugar, sifted

#### METHOD

- Assemble mixer using the scraper beater. Add egg whites and cream of tartar in mixer bowl. Turn mixer to LIGHT MIXING setting until egg whites are lightly mixed.
- Reduce speed to KNEAD/FOLD setting and add icing sugar a heaped spoonful at a time until well combined.
- Place icing into a piping bag and pipe. Icing will harden on standing.

#### LEMON ICING

For 1 x 23cm cake

#### INGREDIENTS

3 cups icing sugar mixture, sifted 1 teaspoon grated lemon rind 2 tablespoons lemon juice 100g butter, melted

#### METHOD

- Assemble mixer using scraper beater.
   Add icing sugar mixture and lemon rind into mixer bowl. Turn mixer to KNEAD/FOLD setting and pour in lemon juice and butter. Mix until combined.
- 2. Spread on cooled cake.

## CHOCOLATE GANACHE

For 1 x 23cm cake

#### INGREDIENTS

200g good quality dark chocolate, chopped 2/3 cup cream

- Stir ingredients in small saucepan over a low heat until smooth. Cool to spreading consistency.
- 2. Spread on cooled cake.

#### BUTTER CREAM ICING

For 1 x 23cm cake

#### INGREDIENTS

125g butter, softened 1 ½ cups icing sugar mixture, sifted 1–2 tablespoons milk

#### METHOD

- Assemble mixer using scraper beater.
   Add butter to the mixer bowl. Slowly
  turn mixer to CREAM/BEAT setting and
  beat for about 1-2 minutes or until pale
  in colour.
- Reduce speed to KNEAD/FOLD setting and add sugar; once added increase speed again until mixed well. Adjust thickness of icing with milk. Spread on cooled cake.

#### TIP

If adding food colourings you may not need to add any milk at all.

#### CREAM CHEESE FROSTING

For 1 x 23cm cake

#### INGREDIENTS

60g butter, softened 250g cream cheese, softened 1 teaspoon vanilla extract 3 cups icing sugar, sifted

- Assemble mixer using scraper beater. Add butter, cheese and vanilla into the mixer bowl. Slowly turn mixer to CREAM/BEAT setting and beat for about 1 minute or until well combined.
- Reduce speed to KNEAD/FOLD setting and add sugar; once added increase speed again until mixed well. Spread on cooled cake.

## QUINOA, LINSEED AND CHIA BREAD

Makes 1 loaf

#### INGREDIENTS

1 tablespoon black chia seeds

1 tablespoon linseeds

2 teaspoons white quinoa

2 teaspoons red quinoa

1 % cups (330ml) lukewarm water

1 1/2 teaspoons salt

2 cups (300g) bakers flour

1 1/2 cups (240g) wholemeal plain flour

2 teaspoons white sugar

2 1/2 teaspoons instant dried yeast

1 tablespoon olive oil

White and brown quinoa extra for crust

- Combine chia, linseed and quinoa in a small bowl. Add ½ cup of the water and mix well; set aside for 20 minutes.
- Assemble mixer using the dough hook. Add salt, flours, sugar, yeast, oil, remaining 1 cup water and soaked seeds. Turn mixer to KNEAD/FOLD setting and mix for about 5 minutes. If necessary turn mixer off and scrape sides to lift any flour.
- 3. Turn dough out onto a lightly floured surface and knead to combine. Place dough ball into a lightly oiled bowl, cover and rest in a warm draught free place for 30-40 minutes or until dough has doubled in size. Turn dough out on bench surface and knock back (punch) the dough to remove excess air, using hands gently push the dough to make a rough rectangle, about 30cm x 20cm.
- 4. Bring one long edge of the dough into the centre then bring the other long edge in. Pinch seam together to seal. Brush with a little water and sprinkle generously with extra quinoa. Flip dough over so the seam is down and repeat with water and quinoa. Cover with a clean towel and allow to rise again for about 30 minutes until doubled in size.
- Preheat oven to 190°C.
- Once doubled in size, cut three shallow slits with a sharp knife on the top of the loaf.
- Bake in oven for 30–35 minutes or until golden brown and hollow when tapped on top. Transfer to a wire rack to cool completely. Place in oven for 10 minutes again if serving hot.

#### TURKISH GOZLEME

Makes 6

#### INGREDIENTS

#### Dough

3 1/2 cups (525g) bakers flour, sifted

2 teaspoons salt

2 tablespoons olive oil

2 tablespoons natural yogurt

1 1/2 cups (375ml) lukewarm water

Extra bakers flour, for kneading

## Silverbeet and cheese filling

1 tablespoon olive oil

I large brown onion, finely chopped

3 cloves garlic, chopped

Salt and pepper

150g feta cheese, crumbled

100g tasty cheese, grated

1 small bunch silverbeet, shredded

#### Meat filling

1 tablespoon olive oil

500g lamb mince

2 teaspoons cumin powder

1 teaspoon sweet paprika

34 cup (185ml) tomato passata

olive oil cooking spray

lemon wedges, to serve

#### METHOD

- Spinach filling: Heat oil in a large frying pan over medium heat. Add the onions and garlic and cook until softened; set aside to cool. Once cool combine with cheeses and salt and pepper. Rinse and dry spinach well and set aside.
- Meat filling: Heat oil in a medium frying pan. Cook lamb in batches until browned. Return all lamb to pan and add spices and passata. Cook for 10-15 minutes or until mixture is thick. Allow to cool.

 To make dough: Assemble mixer using the dough hook Add flour and salt in mixer bowl. Turn mixer to KNEAD/FOLD setting and add oil, yogurt and water. Mix for 6 minutes.

#### TIP

Mixture is quite sticky so don't be tempted to add more flour.

- 4. Turn mixture out onto a well floured surface and lightly knead to combine. Divide dough into 6 equal portions and knead into small balls. Place balls onto a tray lined with a baking paper and dusted with a little flour; cover and rest for 20 minutes.
- Preheat a large non-stick frying pan or flat plate on a BBQ on a medium heat. On a large piece of baking paper; roll one piece of dough to a 3mm thick rectangle.
- For vegetable gozleme: place 1 cup shredded silverbeet onto one half of the dough. Top with one sixth of the cheese mixture.
- For meat and vegetable gozleme; use ½ cup meat filling, ½ cup silverbeet and one sixth of the cheese mixture.
- Lift dough over filling to enclose and pinch to seal the edges. Repeat with remaining dough and filling and place onto separate sheets of baking paper.
- Cooking one at a time. Spray the top
  with cooking spray oil and flip upside
  down onto another sheet of baking
  paper. Place gozleme and baking paper
  onto cooking surface and cook for
  3-4 minutes or until golden. Spray top
  with oil and carefully flip over to cook
  other side.
- Cut into wedges and serve with lemon wedges.

#### BASIC PIZZA DOUGH

Makes enough for four 30cm thin crust pizzas or two 30cm thicker crust pizza

#### INGREDIENTS

3 teaspoons dry yeast

3 teaspoons sugar

1 tablespoon olive oil

1 cup (250ml) lukewarm water

3 cups (450g) bakers flour

3 teaspoons salt

#### METHOD

- Add yeast, sugar, olive oil and water to a large bowl; stir until combined.
- Assemble mixer using the dough hook. Add flour to mixer bowl. Turn mixer to KNEAD/FOLD setting; add yeast mixture and knead for 4-5 minutes until smooth and elastic.
- Place dough ball into a lightly oiled bowl, cover and rest in a warm draught free place for 30 minutes or until dough has doubled in size. Turn dough out on a floured surface and knock back (punch) the dough to remove excess air, lightly knead.
- For thin crust, divide dough into 4 x 170g dough balls and set aside until required.
- For thicker crust, divide dough into 2 even dough balls and set aside until required.

#### PASTA DOUGH

Serves 4-6

#### INGREDIENTS

250g 'OO' Flour

Pinch salt

2 eggs

3 egg yolks

1 tablespoon olive oil

- Assemble mixer using the dough hook. Place flour and salt into mixer bowl. Make a well and add eggs, yolks and olive oil.
- Turn mixer to KNEAD/FOLD setting and mix for about 4-5 minutes or until dough combines. If dough has not combined add 1-2 teaspoons water if needed.
- Remove dough from bowl and cover with plastic wrap and allow to rest for 1-2 hours.
- 4. Use a pasta machine to make pasta.

#### CINNAMON SCROLLS

Makes 12

#### INGREDIENTS

1 % teaspoons dried yeast 4 cup (60ml) warm milk

¼ cup (55g) caster sugar

2 ¼ cups (335g) bread flour

1/2 teaspoon cinnamon

¼ teaspoon salt

3 eggs, lightly beaten

125g butter, softened and cut into cubes

#### Cinnamon filling

2 tablespoons soft brown sugar

1 tablespoon caster sugar

1 1/2 teaspoons cinnamon

25g butter, softened

#### METHOD

- Preheat oven to 200°C. Grease a 12 hole '/a cup capacity muffin tray.
- Combine yeast, milk and 1 teaspoon of the sugar in a bowl; stir to combine. Allow to sit in a warm place for 5 minutes or until frothy.
- Assemble mixer using the dough hook. Add flour, cinnamon, salt, eggs, remaining sugar and yeast mixture into the mixer bowl. Turn mixer to KNEAD/ FOLD setting and mix until almost combined. Add the butter in a few cubes in at a time until mixed through (approx 3-4 min).

#### TIP

If some of the butter does not combine then stop the mixer and scrape butter onto dough then mix a little more.

- Turn dough out onto a well floured surface and lightly knead until combined. Place in an oiled bowl; cover with plastic wrap and allow to rest in a warm draught free place for about 45 minutes or until doubled in size.
- Meanwhile to make cinnamon sugar, combine the sugars and cinnamon and set aside.
- Once rested, place dough onto a floured surface and roll or press out to rectangle shape approximately 25cm x 45cm.
   Using your fingers or a spatula spread the softened butter over the dough.
   Sprinkle the cinnamon mixture over the dough leaving 1 tablespoon for the tops.
- Starting from the long side, roll the dough up to form a log.

#### TIP

If the dough is sticking as you are trying to roll it use a spatula or flat knife to lift it off bench. The dough should be very soft.

- Trim ends of roll then cut into 12 equal size portions. Place each scroll, cut side up, into the greased muffin pan. Sprinkle with remaining cinnamon sugar.
- Bake in oven for 20 minutes. Serve hot.
